

Catastrophic Mortalities for the location should be sent to the land fill in Benton County.(West Camden Sanitary Landfill 731-584-7734) The burial site on the map is a suggestion for a burial location. This spot has been determined because of it location from houses and streams. All soil types on the farm are very limited for large animal burial.

Dr. Charles Hatcher will be assisting in determining the best way to dispose of the animals which will comply with State Law.

**Important!** In the event of catastrophic animal mortality, contact the following authority before beginning carcass disposal:

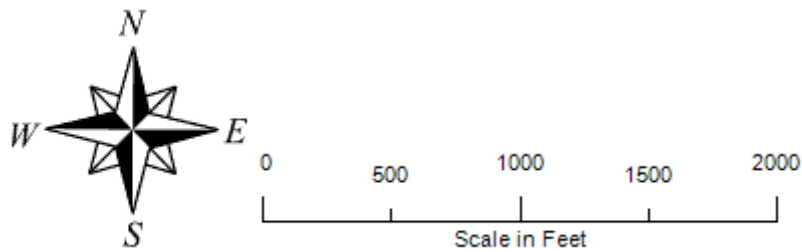

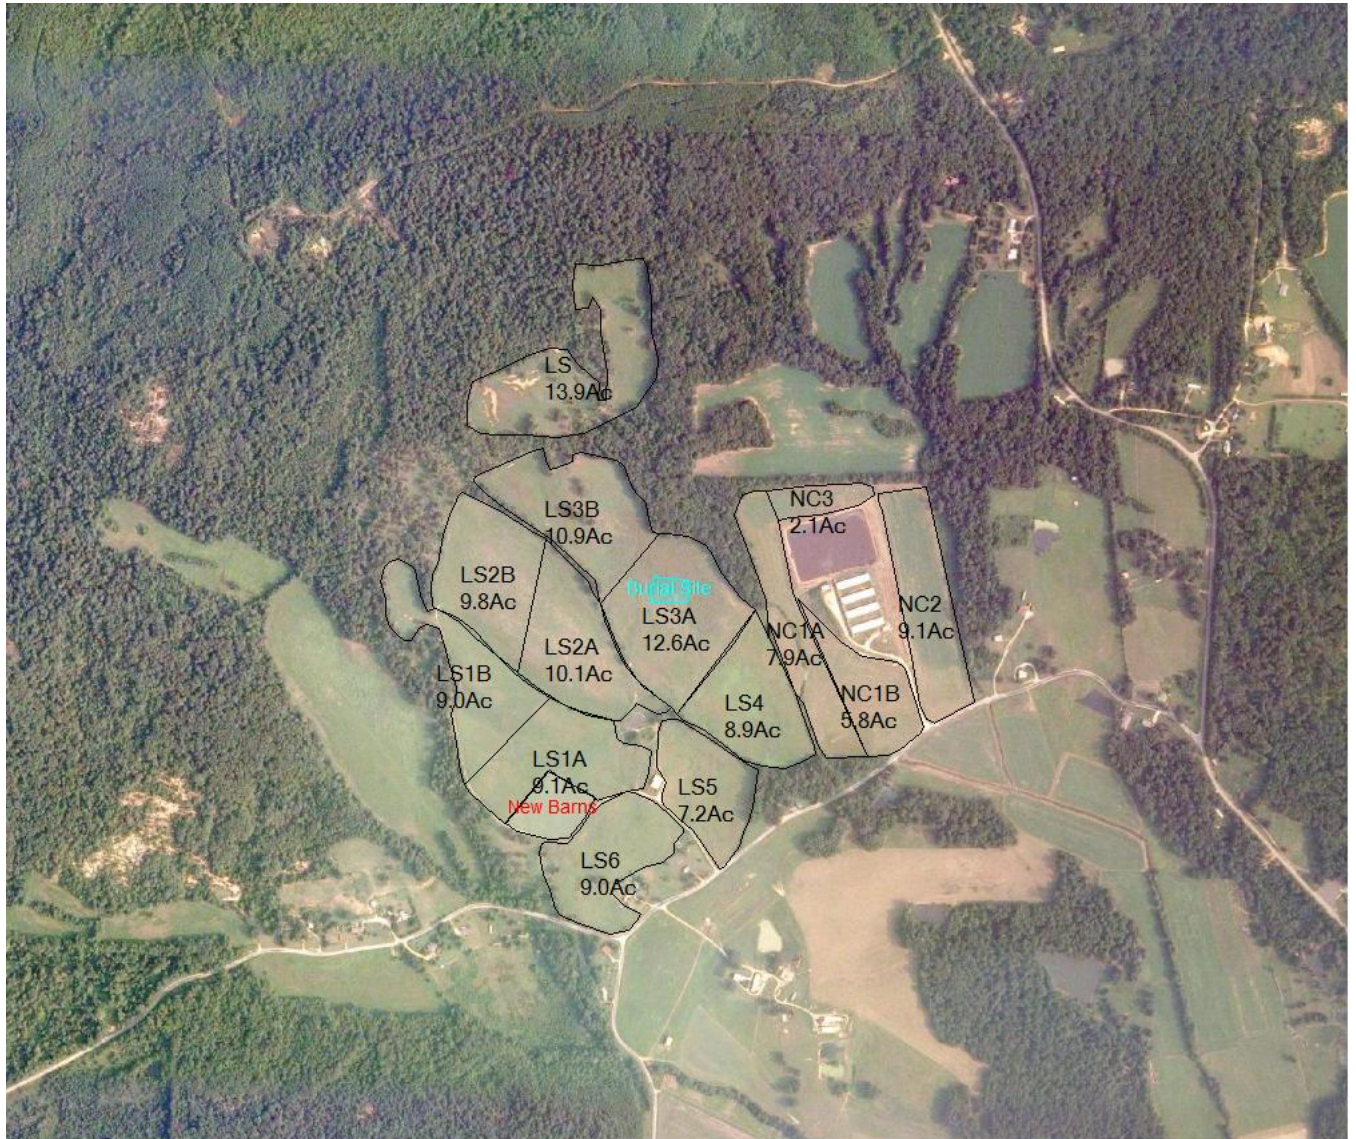

Authority name State Vet  
Contact name Charles Hatcher  
Phone number 615-837-5183

## Section 4. Land Treatment

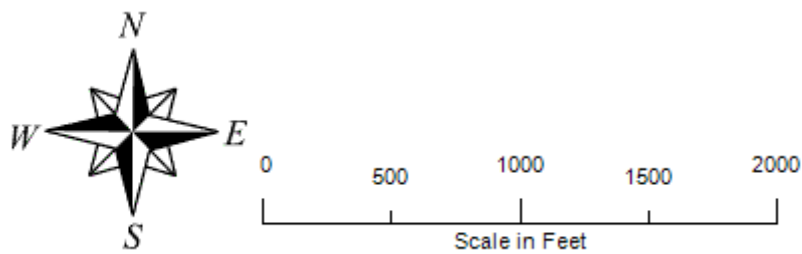

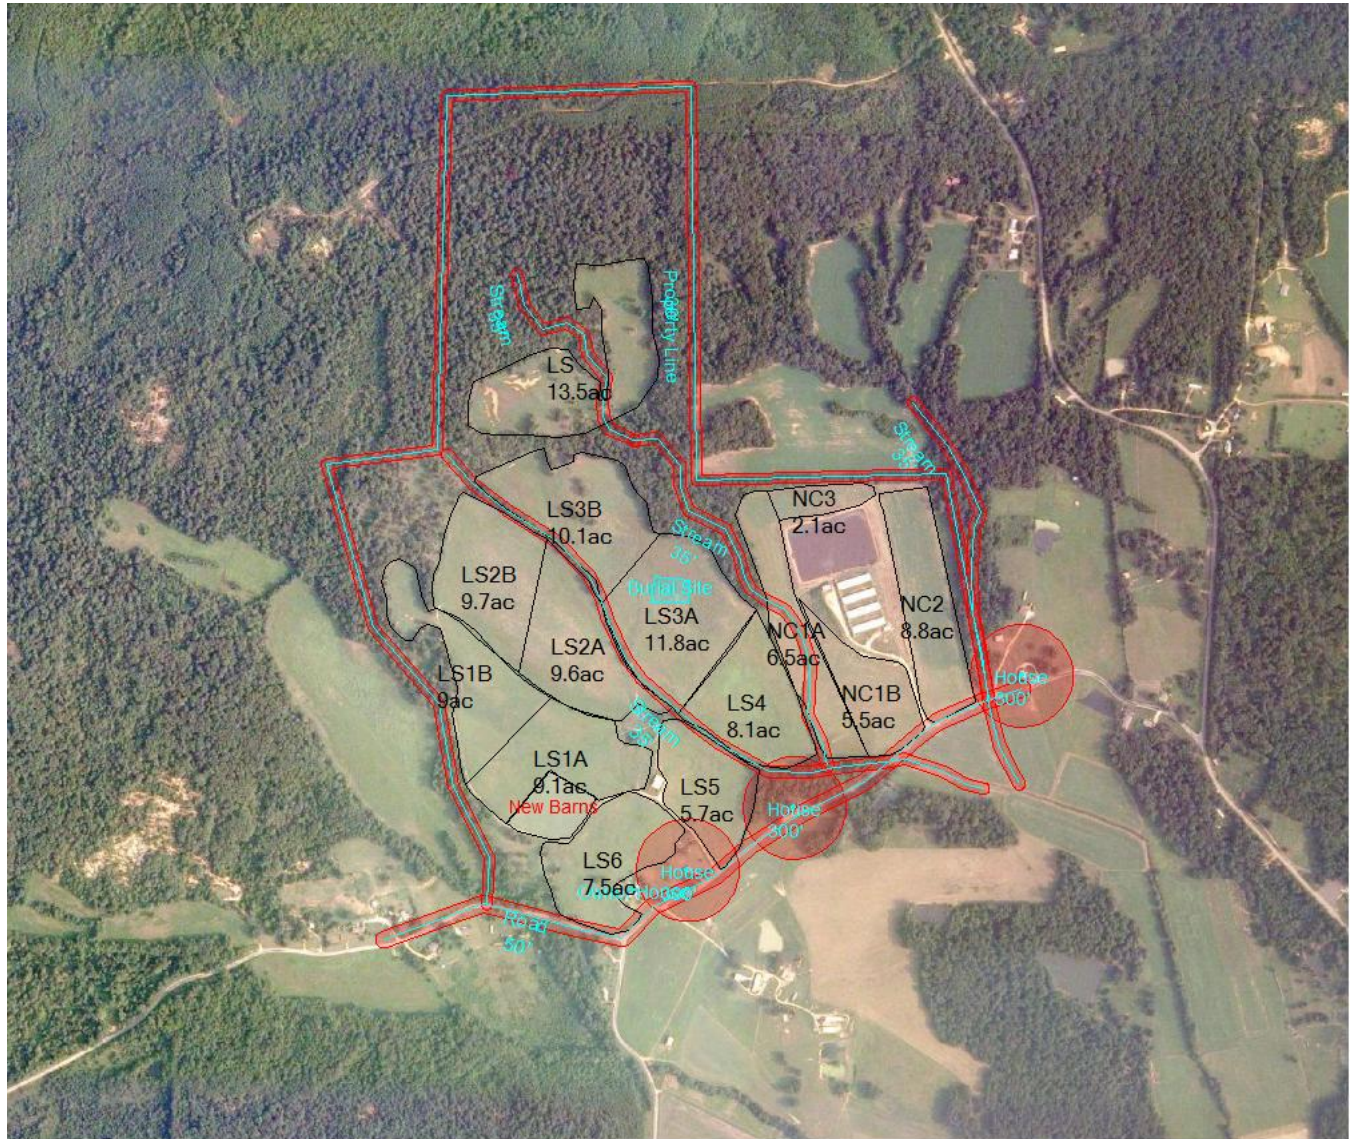

### 4.1. Map(s) of Fields and Conservation Practices

#### Fields with Acres Labeled

## Spreadable Acres labeled with Setbacks

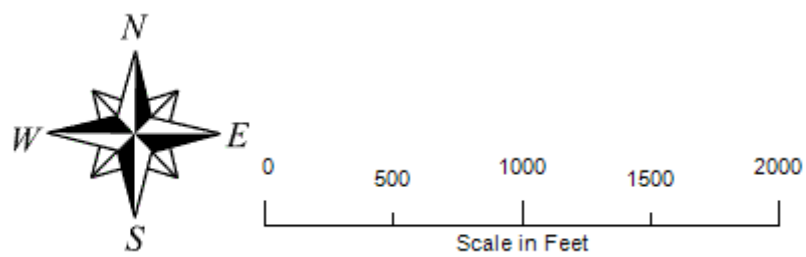

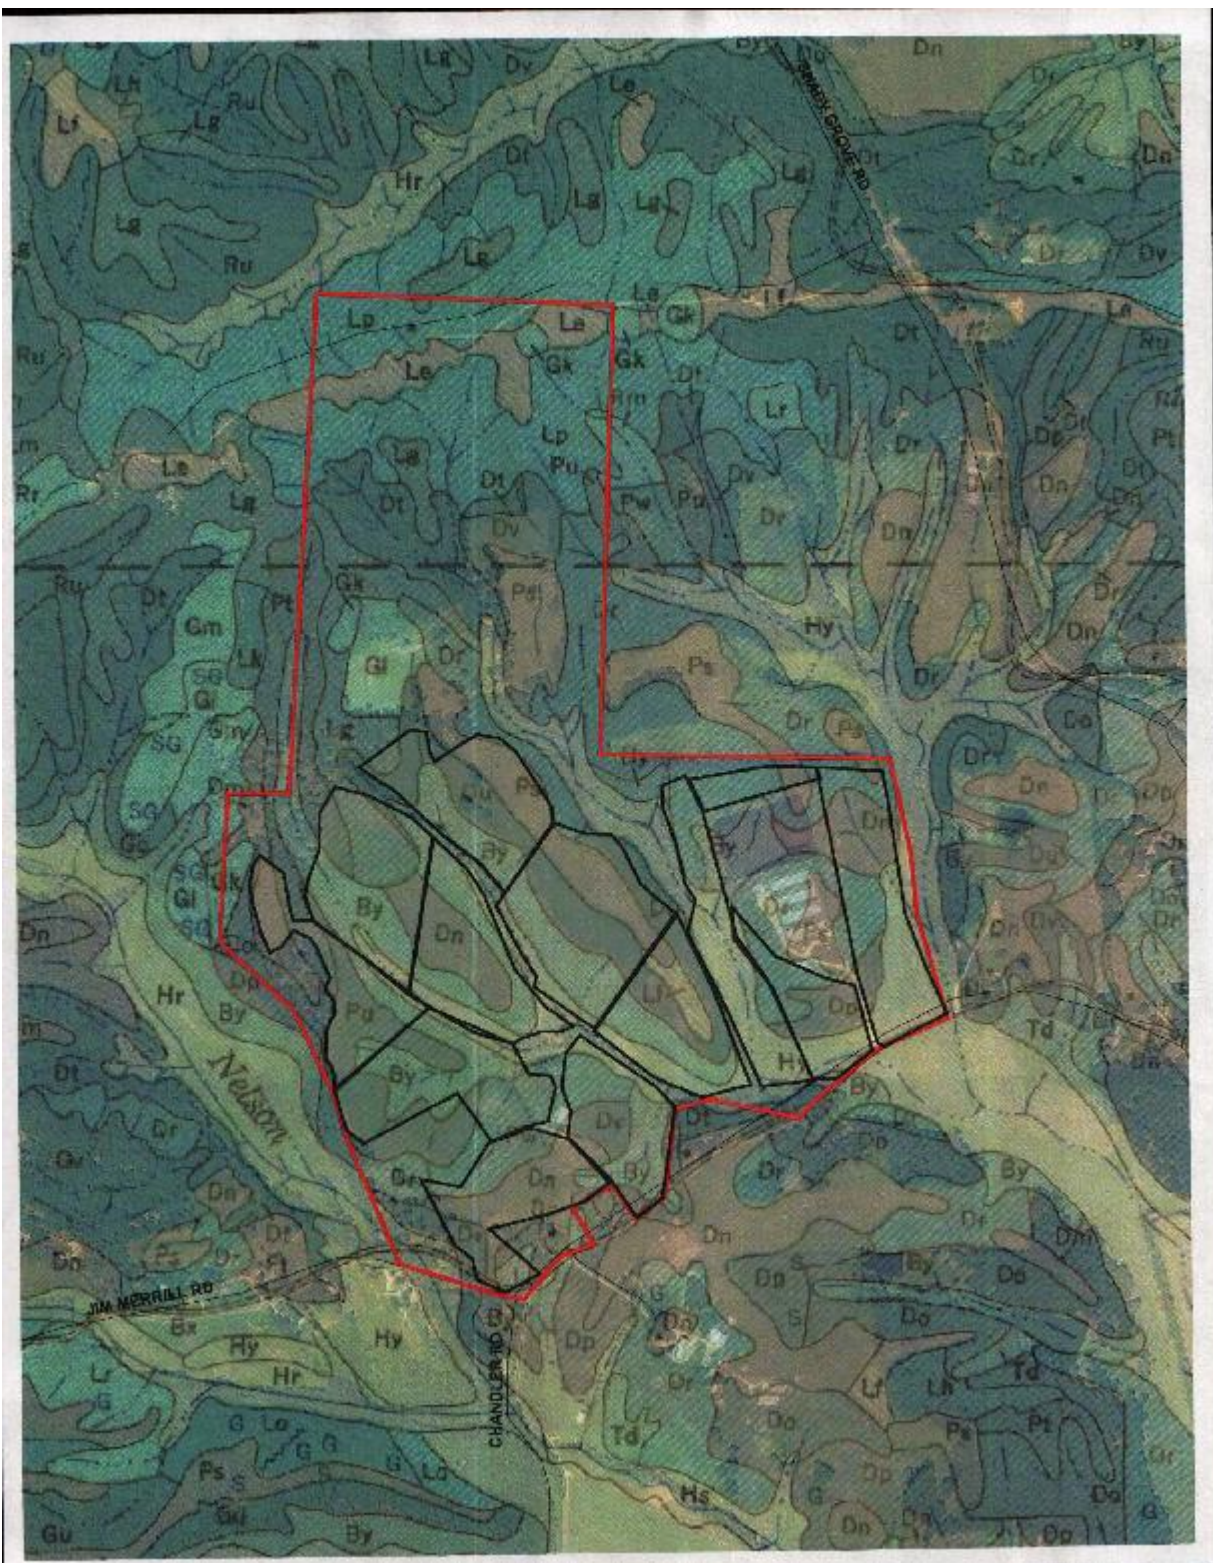

The map shows a topographic view of the Nelson area with various proposed development parcels. The parcels are labeled with codes and acreage:

- LS1A: 0.1ac
- LS1B: 9ac
- LS2A: 9.6ac
- LS2B: 9.7ac
- LS3A: 11.8ac
- LS3B: 10.1ac
- LS4: 8.1ac
- LS5: 5.7ac
- LS6: 7.5ac
- NC1A: 6.5ac
- NC1B: 5.5ac
- NC2: 8.8ac
- NC3: 2.7ac
- LS: 13.5ac

Other features include the 'Nelson' road, 'New Barns' area, 'Hotels' area, and a red circle highlighting a parcel near the 'Hotels' area. A red outline indicates a specific area of interest, and a blue line shows a proposed road or boundary.

Henry County's soils map is not digitized yet. This map has been provided by the Henry County NRCS by overlaying the field boundaries on to an older soils map.
